**RE: Scooter Skills – Thursday 2<sup>nd</sup> May**

Dear parent/carer,

We are offering Year 3 the exciting opportunity to develop their scooter skills further through a training session with 'Pedal Power'. Over the last decade, Pedal Power Training has grown to become one of the country's largest providers of quality cycle and scooter training.

On **Thursday 2<sup>nd</sup> May**, Pedal Power will be running 3 workshops: one per class. Each class will receive expert training from trained instructors. On this day the children will need to bring their scooter and helmet to school but may we request that scooters are not ridden in the school playground for the safety of others. Scooters will be kept outside on the lower playground. When the children arrive at school, we will ask them to line up in classes with their scooters and then we will wheel the scooters into the playground where they will be kept.

Pedal Power do have some loan scooters and helmets for those children who do not own one so everyone will be able to join in and learn some valuable skills for being safe on a scooter. All training will take place inside the school grounds and will be supervised by members of staff whilst led by the instructors.

Everything else on this day will be as normal. We would ask that the children come to school in their PE kit.

Thank you for your continued support,

Year 3 Team
