

Meeting the Needs of Children with Special Educational Needs and Disabilities

SEND Information Report 2025-2026

Beechwood Junior School – A member of Hamwic Trust.

If you have any questions about any information in this report please contact:

Lucy Westron – SENCO & Inclusion Lead lucywestron@beechwoodjuniorschool.co.uk

For further information about the Southampton City Council local offer please follow the link below:

[Welcome to the SEND Local Offer website](#)

Abbreviations used in this report:

SEND – Special Educational Needs or Disability

SENCO – Special Educational Needs Coordinator

At Beechwood we believe that

- All children should be valued regardless of their abilities and behaviours.
- All children are entitled to a broad and balanced curriculum which is matched to meet each individual's needs.
- All teachers are teachers of children with special educational needs.
- All children can learn and make progress.
- Effective assessment and provision for children with SEND will be secured in partnership with parents, children, relevant outside agencies and other partners.

Education Framework

The following table demonstrates how we put support in place for all pupils with SEND (including the areas of need below)

- Learning difficulties
- Communication difficulties
- Autism spectrum disorder
- Specific learning difficulties
- Physical difficulties and medical needs
- Sensory difficulties
- Behaviour, emotional and social difficulties including mental health

	Whole school response Universal Quality First teaching	Targeted support for individuals or small groups, short/medium term	Specialised individual support, medium/longer term
Teaching approaches	The staff at Beechwood have high expectations for every child. Each lesson starts from the premise that every child will make progress. Each class teacher is responsible for the progress of all the children in their class and the aim is that every child will spend most of their time in class being taught by their teacher. Your child's progress will be regularly monitored and if they are finding it difficult to learn new skills and grasp new concepts then additional support will be put in place to help them. A predictable, appropriate learning environment is provided in all classes.	Following a Graduated Response to SEND, assessment for learning is used to identify children who need additional time and practice in order to master the skills and concepts they are being taught. These children may be put into small groups within the class and supported by either the class teachers or by Teaching Assistants as appropriate. Occasionally children might be withdrawn from the class to take part in a particular targeted intervention strategy in order to help them learn a new skill or close the gap between them and their peers. The effectiveness of any intervention strategy is regularly monitored to ensure that it is working.	For a few children the work needs to be adapted to meet their individual needs. There is careful targeting of individual support for these pupils. These children may be on the school's SEND Register and have a Pupil Passport or an Education Health and Care Plan which is regularly reviewed and updated to ensure that the children are making progress.
Learning/ Curriculum	Children will have full access to the school curriculum. The curriculum will be adapted to take account of each child's particular needs and will be modified to suit each child's academic and personal development.	The school identifies children with special educational needs in a number of ways, primarily by following the Graduated Response to SEND and class teachers monitoring the work in their books and their contributions in class on a daily basis. Children are assessed regularly and parents are always informed of any concerns regarding their children's progress.	The school responds to any concerns raised by parents. A range of assessments can be used to help identify the particular difficulty which is causing a barrier to learning. Following the Graduated Response to identifying and supporting children with additional needs, targets are written and reviewed by the pupil, class teacher, SENCO & Inclusion Lead and parents as appropriate.

Support	Instructions may be simplified or adapted and may be supported with visual aids as needed. The school uses activities to develop skills in other areas, for example problem solving and memory, growth mindsets and critical thinking. A variety of approaches to learning are used throughout the school. Tasks are tailored to the needs of the child where possible.	Children develop an understanding of a variety of skills through small group and individual work. A structured, personalised programme of work to develop metacognitive skills alongside English and Maths skills with plenty of opportunities for overlearning and consolidation of concepts. Teachers and support staff are trained in a variety of different approaches to support this and use the Pupil Support Scale to promote children's independence.	Children with SEND in school may also be supported by external agencies and parents are always consulted. As part of the Hamwic Trust, the school employs an Educational Psychologist and a Speech Therapist. They are able to assist the teachers in identifying the particular areas of need that a child may have and to set appropriate targets to help to move the child on. They also train individual members of staff to deliver effective intervention programs. The primary contact for these agencies is the SENCO & Inclusion Lead although Class Teachers and Teaching Assistants are also involved. Once a child has been identified as having a Special Educational Need they will be placed on the school's SEND register. They will have a Pupil Passport which will be reviewed half-termly as part of a Plan, Do, Review cycle in accordance with the SEND code of practice, in line with the Graduated Response to SEND. It is the responsibility of the SENCO & Inclusion Lead to organise external support and maintain records.
-----------------------	---	---	---

Environmental and physical resources	Beechwood Junior School is an inclusive setting that welcomes all children regardless of their abilities. Reasonable adjustments are made to include all members of the school community. Outdoor areas are used to support learning and enhance the curriculum. Parents are welcomed and encouraged to visit the school to discuss individual needs prior to application.	The learning environment can be adapted where possible for targeted support for individuals and small groups. Some children may be invited to join a sensory circuits intervention for the first 20 minutes of every morning to help develop core strength or fine and/or gross motor skills.	The SENCO & Inclusion Lead co-ordinates multi-agency working to support children with SEN and/or disabilities which includes providing any specialist equipment or adaptations that may be needed. Teachers and support staff receive specialist training as required to support the medical needs of individual children. Some children may have an additional occupational therapy or physiotherapy programme where they will be supported in school to work on targets set by professionals.
Behaviour and emotional support	Beechwood Junior School works hard with parents to meet the needs of all pupil's social, emotional and behavioural development. The school uses a variety of social and emotional learning materials and real –life experiences. Behaviour difficulties are dealt with fairly and consistently in line with the school's behaviour policy (available to view in the policy section of the website) following a Graduated Approach to supporting behaviour.	The school runs a number of intervention groups led by trained support staff to help children to develop their social skills. After an initial assessment the children are grouped according to their needs and they work through a structured program to help them develop their self-awareness, self-esteem, friendship skills and social skills. Their progress is monitored termly to determine how long they need to be part of the groups and how well they are transferring the skills they are learning back into the classroom.	We have 12 full time and 2 part time Teaching Assistants as well as a Higher Level Teaching Assistant who work with children on an individual basis both in and out of class. Our ELSA offers emotional and behavioural support through ELSA intervention as well as trauma-informed therapeutic programmes such as Hamish and Milo. This supports children in a variety of ways such as: helping them to manage their emotions; working with them to improve their self-awareness and social skills and supporting them to improve their communication difficulties. They

		Children will be assessed at the start of the year to identify which children might benefit from this approach as a way of helping them to regulate their emotions. The progress the children are making is regularly monitored.	may also support them with coming to terms with a home situation such as a bereavement or family break-up. The adults in the support team have received additional training from Educational Psychologists on a variety of aspects of emotional literacy including emotional awareness, self-esteem, anger management, social and friendships skills, social communication difficulties, loss and bereavement. The team are on duty in the playgrounds at breaktime and lunchtime. They are there to help children to improve their play skills and teach them how to resolve conflicts. There is a nurture space available as well as intervention space per year-group for children who need some time away from the sensory demands of a busy classroom. In addition to the TA team, we have a Family Support worker who is available to work with families to support them with behaviour and concerns at home.

Frequently asked questions from the parent/ carer's point of view.

Question	Answer
How do you know if my child needs extra help? What should I do if I think my child may have special educational needs?	The staff at Beechwood Junior School are committed to early identification of special educational needs. A range of evidence is collected through the usual assessment and monitoring arrangements: if this suggests that your child is not making the expected progress, the teachers will decide whether additional and / or different provision is necessary. If you are concerned please contact the school to make an appointment to speak to your child's class teacher or contact Lucy Westron, the SENCO & Inclusion Lead.
How will staff support my child?	Your child's class teacher and the SENCO & Inclusion Lead will oversee and plan your child's education programme. Depending on the intervention required, your child may be working in a small group with support during the lesson and occasionally it may be appropriate for your child to have some one-to-one support. However it is very important that your child is able to become a successful independent learner and not become too reliant on adult support. If your child requires support to regulate their emotions and behave appropriately then a member of the TA Team or ELSA will support your child to help them become a successful member of the school community. This will all be explained to you by your child's class teacher or the SENCO & Inclusion Lead.
How will the curriculum be matched to my child's needs?	All teachers are teachers of children with SEND. All teachers plan to include everyone in their lessons and work is provided at the appropriate levels for children to access their learning and make good progress. Planning is monitored rigorously by the Senior leadership team.
How will I know how my child is doing and how will you help me to support my child's learning?	We understand the importance of working with parents. There are scheduled parent consultation meetings each term and you can always ask for an additional appointment to speak to your child's class teacher or the SENCO & Inclusion Lead at a mutually convenient time. In addition to this, at the end of the Summer term, you will have a chance to meet the teacher your child will be having the following academic year. You will receive a written report in the summer term which will detail the progress made against the National Curriculum. We will always ask to see you if we have concerns about your child's progress. If your child is on the SEND Register and has a Pupil Passport, you will receive a copy of this each term to ensure you are informed of their progress against their individual targets and impact of additional

	interventions. If your child has an Education Health and Care plan, an annual review is held according to the guidance in the SEND Code of Practice.
What support will there be for my child's overall wellbeing?	All children have a trusted adult within the school that they can speak to. This will often be their class teacher or adult within their year group. Children can also have access to support from the ELSA or FSW if required. This might be in the form of a regular weekly one-to-one session where your child would be able to talk about any difficulties they might be having and learn additional skills to help them to cope with situations they may be struggling with; or it could just be for a one off session as required. The TA team are out on the playgrounds at break time and lunch time and are able to spot children who don't seem to be thriving.
What specialist services and expertise are available at, or accessed by the school?	We can link with other professionals such as Mental Health in Schools Team (MHST), Child and Adolescent Mental Health (CAMHS), Family Help service (Formerly Early Help), Children's Resource Service, Educational Psychology, Occupational Therapy, Physiotherapy and Speech and Language therapy. Outreach support from specialist schools in the city can also be accessed through the Southampton Inclusion Partnership outreach provision (SIPOS). As part of Hamwic, the school employs an Educational Psychologist and a Speech Therapist who are in school one day every 3 weeks. This means that a greater number of children can be seen.
What training have staff supporting children and young people with SEND had?	The SENCO & Inclusion Lead, Lucy Westron, is in her tenth year of teaching and completed the Masters-level SENCO Accreditation qualification in January 2019. She regularly attends network meetings and CPD with regular training to ensure that she is up to date with current research and practises on SEND issues. All staff receive regular training and updates from the SENCO & Inclusion Lead and SLT, the educational psychology service, local special schools and other outside agencies. Recent training has included Precision Teaching, Autism, bereavement/ loss, speech and language, behaviour management, child and adolescent mental health, social stories and working memory difficulties, Growth Mindsets and promoting trauma-informed approaches to respond and support children with ACES. The school nurse provides training as needed on asthma, diabetes and epi-pen use and Specialist Teacher Advisory Service are utilised to train and support teachers and support staff working to support children with either a visual or hearing impairment.

How will my child be included in activities outside the classroom including school trips?	We make every effort to include all pupils on school trips and residential visits. A full risk assessment will be completed to ensure their needs are met and equal access is achieved. If there are concerns we will always seek to make adaptations such as taking additional staff or in some cases asking parents to come along. This will always be discussed with parents and carers to ensure all children have equal opportunities to experience the enrichment opportunities we are able to offer.
How accessible is your school?	The school building is on two floors and currently the Year 3 classrooms are downstairs and all the other classrooms are on the second floor which can only be accessed by a flight of stairs. However we would make every reasonable adjustment possible to ensure that all members of the school community could be included. We have 2 disabled toilets. There is a ramp onto one of the playgrounds to allow access for parents in wheelchairs or with pushchairs. There is a ramp into the reception area to allow access for wheelchairs to the ground floor including the hall. However there are currently stairs down to the dining hall.
How will school prepare and support my child to join the school and then transfer to a new school?	The SENCO & Inclusion Lead along with the Year Leader for Year 3 and Year Leader for Year 6 liaise with infant and secondary teaching staff, support staff and SENCOs for all feeder schools. Extra transition visits are arranged for all children joining in Year 3 in addition to the Southampton City transition days. In addition to this, further additional visits can be arranged for Year 2 and Year 6 children as required. These can be arranged for individual children or small groups. Social Stories are written for children who might struggle with the transition process. There are regular visits between our feeder schools and our local Hamwic Trust schools. Throughout the year our Year 6 children are provided with regular opportunities to meet teaching staff from secondary schools in preparation for the move to secondary school.
How are the school's resources allocated and matched to children's special educational needs?	The Department for Education provides funding for schools to meet the needs of all children with SEND. This is worked out using the information about the children's prior attainment and the socio-economic make up of our school cohort. We allocate support according to need. Additional interventions are funded to support children's progress. If your child has an Education Health and Care Plan, we will ensure that the provision specified is provided.
How is the decision made about what type and how much support my child will receive?	The leadership team hold regular meetings with each class teacher to discuss pupil progress. If there is a need for some extra support this will be agreed by everyone who is involved in supporting your child.

Who can I contact for further information?	• Your first point of contact if you want to discuss something about your child is your child's class teacher. You can contact the school office on 023 8022 7692, email info@beechwoodjuniorschool.co.uk or pop in to speak to somebody on reception to make an appointment. • If you still have a query or concerns after meeting with your child's teacher, you could arrange to meet with Lucy Westron – SENCO & Inclusion Lead to discuss any concerns you may have regarding your child's Special Educational Needs or the level of support they are receiving. • If you would like to apply for a place at Beechwood Junior School, please contact the school to arrange a visit. • Please see also the Southampton City council local offer: https://www.southampton.gov.uk/localoffer

Frequently asked questions from the child's point of view:

Question	Answer
How do the teachers know if I need extra help?	Your teachers are continuously using their Assessment for Learning to track your progress so they will know if you need extra help and will employ a range of QFT strategies to ensure this is in place for the subsequent lesson.
What should I do if I think I need extra help?	You can talk to your teacher and tell them what you feel you are struggling with. You can also talk to someone at home and they can make an appointment to see your class teacher, Year Leader, Miss Westron or SLT.
How will my work be organised to meet my individual needs?	Your teacher will give you work that will allow you to learn and make progress. They will make sure that it is pitched correctly at the level you require, using scaffolds if needed to support you to achieve.
How will I be involved in planning for my needs and who will explain it and help me?	You may have your own Pupil Passport. It will be shared with you by your teacher, TA or HLTA. You will know what your targets are and the adults who work with you will help you to achieve them.

Who will tell me what I can do to help myself and be more independent?	All the staff can help you become more independent.
What should I do if I am worried about something?	Talk to your teacher or any other familiar adult in the school.
How will I know if I am doing as well as I should?	Your teacher will talk to you about how you are doing and make regular comments about your work in your books. You will have two school reports each year, and your teacher will meet with someone from home to explain to them how you are doing.
How can I get help if I am worried about other things other than my school work?	You can talk to any adult in school who is a trusted adult. These are usually your teacher, TA, HLTA or member of SLT.
Are there staff in school who have been trained to help young people who need extra help?	All the staff have regular training to make sure they are able to help you learn. Miss Westron has an advanced qualification which means she is trained to help children with learning needs. She has also completed a course so that she can help children with mental health difficulties. Other staff are trained to support you with your emotions and behaviour.
Can school staff get extra help from experts outside the school if they need to? (e.g. advice and training on medical conditions)	We work with lots of people who can support you too, for example, Educational Psychologists, Speech therapists, the school nurse and social workers.
If I have difficulty in taking part in school activities, what different arrangements can be made?	It depends on what the difficulties are but we will always work hard to make sure that all children are able to be included in all school activities.
Who can I talk to about getting involved in school activities if I need extra help?	You can talk to your class teacher if you would like to be involved in school activities where you may need extra help.
What help is there to help me get ready to start at my new school?	We will talk to your current school and your parents/ carers you are welcome to come and visit the school. We can give you a school prospectus and write you a social story if this will help you. A member of staff or one of the Beechwood children can give you a tour of the school.

What should you do if you feel that the support outlined in this SEND Information Report is either not being delivered, or is not meeting your child's needs?

- You should contact your child's class teacher in the first instance and/ or talk to Lucy Westron – SENCO & Inclusion Lead
- Following this you could make an appointment to see the Head Teacher – Lucy Phillips – (head@beechwoodjuniorschool.co.uk or via the school office: 023 8022 7692)
- If you are not satisfied that your concerns have been adequately resolved then please write to:
