

Reading Newsletter: Autumn One

Welcome to a new year of reading at Beechwood Junior School!
At our school, we understand that being a confident reader is a strong marker of future success and as a result, we encourage our children to grow their own reader identities. Here, we prioritise daily story time and encourage children to read at home in order to discover texts they enjoy.

New and existing parents, please ensure you have your child's BOOM reader login somewhere easily accessible and that you allow your child time to access their account and log their reads. If you are able to, please download the app which makes it even easier to log reads: see our website for a handy guide to using the app.

These are the texts we will be reading in Autumn One.

Supporting your child at home to develop their reading comprehension.

Top Tips:

1) Ask questions and have conversations

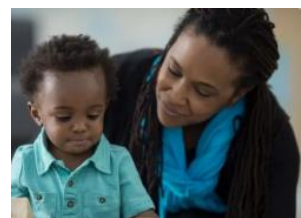

The more children talk, the more ready they are to read and write. You can talk about what you are reading and ask questions as you go. Curiosity promotes understanding.

2) Develop vocabulary by talking about words and word meanings.

Unlocking word meaning is one of the most important reading comprehension skills that allow us to derive meaning from text as a whole.

3) Activate background knowledge.

Make connections between ideas in the text and their own prior knowledge and personal experiences helps children with comprehension.

4) Monitoring comprehension.

Check that your child has understood the text and if not model rereading to check or clarify. Comprehension involves assessing and evaluating your own understanding.

5) Embrace storytelling in all its forms.

All text should be celebrated. Encourage your child to read what they love but also to try new things. Any engagement with text is a positive reading experience.

Why is reading at home so important?

Children with access to 25 books at home complete an average of 2 more years of school than children from homes without any books.

Reading is a critical skill for succeeding in most school subjects.

A child spends 900 hours a year in school and 7800 hours at home.

Research shows that just 20 minutes a day spent reading with a child helps them develop critical reading skills.

Kids 4-5 years old gain 6 months of reading ability by being read to 3 to 5 times per week.
